FALL & SPRING
1929-1930

A COMPLETE ALPHABETICAL LISTING UNDER BOTANICAL NAMES OF

FOR CLASSIFIED LISTS OF TREES, EVERGREENS, ETC., OR INDEX OF BOTH COMMON AND BOTANICAL NAMES REFER TO PAGES IN BACK OF CATALOGUE.

Office and grounds, Princeton Nurseries.

FOREWORD

THE Fall season is the beginning of the Nurserymen's year. Stock developed through the summer months is now ready, and the best selections are to be had during this season.

We have at the present time nearly 700 acres of carefully grown nursery stock and invite you most cordially to call at our nursery and look at our ornamentals which comprise over 1100 hardy varieties.

A visit and personal inspection is much more satisfactory than any description we could give you, and we sincerely hope you will arrange to come early this Fall. Detailed instructions and map will be found on the last page of this booklet.

HORTICULTURAL STANDARDS

AS ADOPTED BY THE A.A.N. JUNE 1923. USED AS A BASIS FOR
GRADING AND QUOTATIONS.

A part of our fleet of White Trucks.

TRUCK DELIVERY

We can make deliveries by auto truck within 100 miles of our nurseries. There are several marked advantages of truck deliveries which are obvious; boxing, freight and cartage are eliminated and the stock arrives with the minimum of exposure and handling. Our charge for this service is very moderate and we feel sure you will find this method satisfactory if located within the radius mentioned. WRITE FOR FOLDER.

PACKING

Bales and Boxes charged at cost. No packing charge is made for stock packed in full carlots. Boxes are made in the following sizes:

31 in. x 36 in.—10 ft. long	\$5.25
28 in. x 32 in.—10 ft. long	4.75
23 in. x 28 in.—10 ft. long	4.25
19 in. x 24 in.—10 ft. long	3.75
17 in. x 20 in.—10 ft. long	3.25
15 in. x 16 in.—10 ft. long	2.75
12 in. x 15 in.—10 ft. long	2.00

Add 50 cents for each additional 2 feet of length.

Decreases are in the same proportion, 50 cents for each 2 feet.

CREDIT AND TERMS

We are glad to extend credit on the basis of our regular terms to established nurserymen who are known to us, or are rated satisfactorily. Cash before shipment is required from parties unknown to us, who have no commercial rating.

Terms, 2% 10 days, 1% 30 days from date of invoice, 60 days net. Interest at 6% will be charged on overdue accounts, Spring accounts from July 1, Fall accounts from January 1.

LIABILITY AND CLAIMS

We are not liable for injury to stock from frost, hail, fire or other causes beyond our control, and book all orders with this understanding. Errors made by us will be gladly corrected, but complaints must be made within ten days after receipt of stock.

Plants become your property upon delivery to transportation company, and we cannot be responsible for loss, damage, or delay in transit.

PRICES

Prices are F.O.B. Kingston, N.J., packing extra, and are as low as is consistent with the market, taking into consideration that the stock offered is of the best quality, carefully grown, with ample room for full development. "Princeton Products" should not be compared with poorly grown plants frequently offered. Prices are for Fall 1929.

Deciduous Trees, Shrubs, Evergreens and Vines

(See Index in Back of Book)

NOTE—The figures following each variety, indicate in feet the approximate height of that plant when mature. It must be understood, however, that many varieties in their native habitat greatly exceed this height, but soil and climatic conditions modify their growth and character to a variable extent, and allowance for this has been made in the heights given here.

We recommend that all varieties marked with an asterisk be lifted with a ball of earth and burlapped. Experience has shown that the loss in these plants, which is otherwise high, is reduced to a minimum if handled in this way. This will involve an extra charge per plant, as follows:

2'-4', 25c 4'-6', 40c 6'-8', 60c 8'-10', 75c

Larger sizes in proportion. In all instances where varieties are marked B. & B., these charges are included in the printed price.

RESERVATIONS—SPECIMEN PLANTS

For an additional 25% customers will be permitted to select and reserve specimen plants in the nursery blocks for future delivery.

FRENCH LILACS—NAMED VARIETIES

These are all grown from cuttings and are on their own roots, which is the best way Lilacs can be grown, as they will not sucker. It is the most expensive way to grow them, but our prices compare favorably with the cheap, grafted stock. These named Lilacs generally grow from 6 to 12 ft. in height, depending on the variety and locality.
